Source: World Health Organization (WHO) global list of high burden countries for TB.

[WHO global high burden countries for TB](#)

"High Burden Countries" are defined as the top 20 countries in terms of estimated absolute number of new (incident) cases in 2019; plus 10 additional countries with the most severe burden in terms of case rates per capita. Above list compiled by overlapping 3 TB lists by WHO for TB, HIV associated TB and MDR/RR-TB.
